

LAMBWESTON

SAP Integration Project Of A Leading Manufacturer Of High Quality Frozen Potato Products Results In More Streamlined and Compliant Global Trade Processes

▶ ABOUT THE CLIENT

Lambweston (Conagra Foods), through its subsidiaries, produces and supplies high quality frozen potato products to more than 100 countries across the globe. Started as a small farm in the 1950s, Lambweston now operates in various regions worldwide, including the US, Oceania, Latin America, Europe and Middle East. To ensure seamless operations, Lambweston is committed to innovating its logistics and international trade management.

The Challenge

The client wanted to streamline its foreign trade processes, specifically the following:

-  Denied Party Screening of Business Partners.
-  EAR screening of Export Orders.
-  Export documentation including 16 different regulatory forms.
-  US Export AES self-filing.

Solution

Lambweston partnered with Ropaar, the TradeBlazers in Global Trade, to improve its Global Trade Compliance through SAP integrations with SAP and non-SAP applications. Using its TradeBlazers' Approach, Ropaar helped the client optimize its screening processes and enable import and export self-filing for a more streamlined and compliant global trade procedures. The project was completed in just 7 months, allowing the client to quickly realize ROI.

Outcomes

The GTS project resulted in various competitive advantages, including the following:

-  Technically challenging Master Data and Transactional Integration between Legacy ASI ERP and SAP GTS.
-  50 Different Export document generation out of GTS for heavily regulated Food Imports in Export markets.
-  US AES export declaration Self-filing.
-  Subject of a customer success story presented at ASUG Sapphire annual conference.
