

# Streamline Your Screening Process

## Using SAP Watch List Screening

Watch list screening provides another layer of protection against liabilities and reputational damages by allowing companies to avoid getting involved with prohibited, sanctioned, or high-risk entities, organizations, and individuals. But the ever-growing partner ecosystem can overwhelm technical and business users. As the value chain expands, it will become even more complex to screen potential partners.

## Why SAP Watch List Screening

SAP Watch List Screening is a robust cloud-based application that streamlines and automates the end-to-end screening process using the most updated, correct, and complete information. SAP Watch List Screening comes with out-of-the-box integration with SAP S/4HANA and APIs that let you integrate the application with other SAP and non-SAP tools. With SAP Watch List Screening, you can optimize screening compliance, reduce supply chain disruptions and delays, and minimize the cost and effort of third-party due diligence.

## Key Features

### Intelligent Screening

Automate key screening processes such as sanctioned party detection and blocking so you can focus on running your business and minimize costs and delays.

### Software-as-a-Service

Take advantage of a software-as-a-service model for more streamlined and anytime, anywhere restricted party screening.

### Out-of-the-box Integration

Use a watch list screening application that easily integrates with other SAP and non-SAP tools for smoother and faster screening processes.

### Real-time Compliance Checks

More proactively mitigate risks through real-time compliance check that takes advantage of real-time data and intelligence.

## Key Benefits

Speed time-to-value using a software-as-a-service model.

Comply with trade regulations.

Improve results through automation of key screening processes.

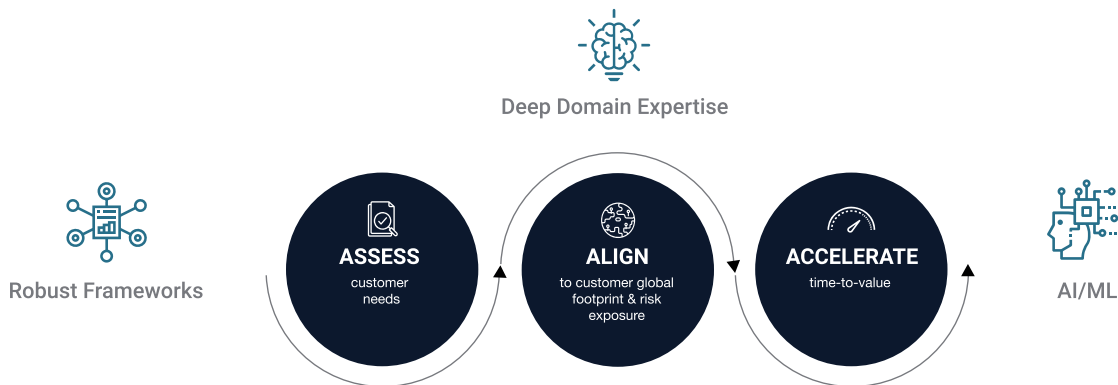

Maximize flexibility using ad hoc screening for extended use cases.

## Why Ropaar

The success of your SAP Watch List Screening project depends on who your implementation partner is. We at Ropaar do not provide our clients with canned and cookie-cutter solutions. We study your business thoroughly so we can provide you with the right solutions to your unique problems and issues. We offer relational – rather than transactional – customer engagement.
