

Largest Mozzarella Cheese Manufacturer in North America Deploys SAP GTS E4H with Global Compliance & US Export AES Self-filing

▶ ABOUT THE CLIENT

The client is the largest mozzarella cheese manufacturer in North America

The Challenge

The client needed an experienced and reliable partner to replace its legacy Amber Road global Trade solution with SAP GTS E4H (Edition for HANA) release 2020.

Solution

Ropaar took charge of the project and, over the course of eight months, performed the following:

-  Integrated S/4 HANA and Bluejay TMS with SAP GTS E4H
-  SPL and Export Control screening of all parties and transactions
-  Automated AES and AES amendment filings managing purely by exception
-  Produced 40+ country of destination specific Export documents

Outcomes

The SAP GTS project resulted in various positive outcomes for the client, including:

-  Project completed on-time and on-budget within an 8-months planned timeline
-  Achieved significant productivity improvements by achieving near 100% zero-touch AES filings
-  Implemented a configurable export documents framework to add to 40+ export docs and meet any future regulatory change post-project
-  Rolled out FIORI based UI for business users
